

# Forensic Data Collection

## Fast. Experienced. Local.

### The Regions Most Experienced Experts

- Local certified computer forensic experts
- 23 of the largest law firms in Cincinnati use SALIX
- **Over 100 cases involving E-discovery last year**
- Forensically collected data from **over 600 unique devices**
- State of the art forensics lab and processing tools
- Over 20 CLE accredited events focused on E-discovery / Forensic Collection
- Provide consulting regarding management of E-discovery to Fortune 500 companies
- Case-specific collection strategies

### Speed You Can Depend On

- **All data is processed locally**, providing an advantage over providers who must overnight or upload data to be processed in another city, state or country
- **The most robust processing capabilities** in the region, allowing for large amounts of data to be processed quickly and available for your review
- Multiple shifts **process data 24 hours a day, even on weekends**
- Flexible processing schedules reduce the impact on your client

### World-Class Value

- 3 Processing Options: **Native review, Image review, and Hybrid review**
- No travel costs for forensic collections within 150 miles of Cincinnati
- **Early Case Assessment** and first pass review tools give you more control over the scope and cost of your collection projects
- **0.1 GB based pricing** means even small projects are still cost-effective
